

Thank you for your email. I did not realize we had a francophone population in this community. I looked at internet resources for information on language. Yes, Sioux Lookout is composed of many diverse groups - Indigenous (Ojibway, Cree, Oji-Cree), Chinese, South Asian, Black, Filipino, Latin American, Arab.

Here is what I found:

and

See attached Municipal page.

If elected, I would work with the Mayor and Council to forward your questions regarding your concern for the Francophone community.

Thank you for your email.
