

The francophone community is very important to me as I am bilingual. I would like to see every business in Manitouwadge offer bilingual services where possible. I am very proud to have two languages to offer constituents. I encourage 1 and all to participate in any francophone event.

I think it would be a great idea to have the township website offer an option to switch over to French for those who are French as a first language.

Thank you very much,
Merci beaucoup,

Jim Moffat
