

Je m'appelle Kaleb et je suis conseiller municipal de la ville de Fort Frances. Merci beaucoup pour la questions.

répondre à la première question;

J'ai eu le privilege de suivre un programme d'immersion francais jusqu'en sixeme annee. La langue francaise est importante au Canada pour plusieurs raisons.

1. La langue francaise fait partie de l'identite nationale et de la culture.
2. La maitrise du francais confere des avantages concurrentiels sur la marche du travail.

Moving to english hope you don't mind auto correct keeps changing my words.

The second question about policy and resources coming from town hall at this time I don't believe we have a french language policy or much support from library at this time. Let me look into what there is and what opportunities there are.

Do you have access to language policies and recommendations that I could present for council discussion?

If you have time would be happy to talk more in english my reading french is much better than speaking and writing.
