

Good morning Eric

Thank you for reaching out!

Our Franco-Northern Ontario residents are an important group.

My approach has always been to treat all people with respect and inclusivity regardless of their background.

Your question looks at an issue that continues to rest at the forefront of concerns not just for Marathon, but Ontario and Canada as well. With 35 years of experience, notably in policy development and implementation at the municipal level I have a keen interest in leveraging the tools our municipality retains to promote a healthy, multicultural community.

If you are able, I would like to meet and discuss your concerns in person. I do have office hours (1-3 pm Monday to Friday), but am also able to meet outside those hours.

Looking forward to hearing from you,

Louise
