

Good evening, Eric

I feel the francophone already have a place here in Schreiber. The township takes place in the raising of the flag, and I have personally noticed their presence at events that have been held by the town. I have never known them to not been made welcome. As for your second question, I would have to look into that and get back to you. Implementing new policies or making changes to existing ones can not be done by one person alone. But if there is an issue that needs to be looked into and addressed, I would be willing to look into that and bringing it to the attention of others should I be elected.

Thank you for your questions

Please feel free to reach out with any further questions that may arise.

Sandra Miller
