

Un grand merci à Monsieur Jack Harrison pour avoir pris du temps pour nous avoir répondu. *A big thank you to Mr. Jack Harrison taking the time to answer us.*

Thank you for the opportunity to participate in a questionnaire that speaks to what is important to your community.

1. To be truthful I am not aware of the needs of the francophone community. My wife is actually francophone and she could not help me! If there is an identified need in the francophone community, I would be willing to work to understand that need and if it is within my jurisdiction would be willing to work towards satisfying that need.
2. Yes. If our city staff do not have this information on our website already, I think it would be beneficial to be included to serve our community.
3. I am not aware of our flag policy, but I would probably not be in favour of a permanent flag at our city hall. I we support every worth organization we look like the United Nations office with all it's flags!

Sincerely,
Jack Harrison
